TRANSPORTATI BUT WHAT KIND OF PNEUMATIC TRUCK TIRES

TINE years ago, there were only about 25,000 motor trucks in the country. That was when the first pneumatic truck tire ever built came out of one of the U.S. Tire factories.

How changed today. More than 700,000 trucks. Over 5,000 truck lines, paralleling the service of the railroads. More starting daily.

The United States Rubber Company has long been preparing for this new transportation era. Looking

ahead-realizing the part the right kind of pneumatic truck tires should play. Thinking of the food situation, the industrial situation-every phase of commercial transportation.

Its years of experience-longest of any truck tire manufacturer-have been devoted to this one objective: the construction of a Truck Pneu-
